FOREWORD

Throughout this book are the pages representing another year filled with memories of friends, activities and places. You have gone through each day adding and building to your school life and may this annual represent the way you can turn back time to relive your school days at the Alma Mater so dear to each of your hearts. Wherever you may journey through life may this book go with you as a symbol of the hopes, dreams and ideals you began building during your school days.

I hope that as you go through this book, page by page, you capture the spirit of the school and the joy and enthusiasm of each student. Both the staff and I have tried in a memorable way to signify the real character of the school and the people in our annual.

I want to take this opportunity to thank with all my heart the staff members, advisor and others who have made this annual become a successful reality. It is a job that cannot be done alone but with cooperation, enthusiasm and hard work of many people. To everyone in connection with this year's annual I give my deepest gratitude and thanks. To each owner I send my best wishes and may the best of everything be yours through the coming years.

Sincerely,

Patricia Howard, Editor
